reci CO<sub>2</sub> Laser Tube – Photosreci CO<sub>2</sub> Laser Tube – Technical Parameters

型号 Model	标功率(W) Rated Power	最大功率(W) Max Power	全长(mm) Full Length	管径(mm) Outer dia.	催化剂 Catalyst	寿命(h) Lifespan
W2	90	100	1150	Φ 80	有 Yes	10,000
W4	120	135	1400	Φ 80		10,000
W6	150	170	1650	Φ 80		10,000
W8	170	195	1850	Φ 90		10,000

## ☆ 2012 New Released – W series

## Long life span

- It has been proved by experiment that our product can last for 10,000 hours if the user follow the operation instruction and no physical damage happens.
- Provides 300 days warranty period.

## High efficiency

- High quality of laser beam and high power
- Same dimension, more powerful.
- Cutting speed of machine will be doubled by using Reci tubes in comparison to other tubes.

## High stability

- The output model of W series tube is guaranteed not to be changed in the whole lifespan and power attenuation can be controlled within 10%.
